C Mathematical and Quantitative Methods

M.L. Blackburn, Misspecified skedastic functions in grouped-data models (C2) 1
N.J. Vriend, Will reasoning improve learning? (C7) 9
H.S. Lee and C. Amsler, Consistency of the KPSS unit root test against fractionally integrated alternative (C12)151
J. Noh, Small sample properties of GARCH(1,1) estimator under non-normality (C12)161
J. Lee, C.J. Huang and Y. Shin, On stationary tests in the presence of structural breaks (C12)165
J. Ondrich and K. Prasad, A duration model with unobserved heterogeneity as a mixture of Dirichlet processes (C14) 19
Z. Bar-Shira and I. Finkelshtain, Nonparametric analysis of pooled production data (C14)173
P. Deb, Finite sample properties of the ARCH class of models with stochastic volatility (C15) 27
J. Breitung and P.H. Franses, Impulse response functions for periodic integration (C22) 35
J. Lyhagen, A matrix evaluation of the moving-average representation (C22)179
J. Abrevaya, The equivalence of two estimators of the fixed-effects logit model (C23) 41
B.M. Balk, The decomposition of cost efficiency and the canonical form of cost function and cost share equations (C31) 45
G. Laroque and B. Salanié, Normal estimators for cointegrating relationships (C32)185
J.C. Dumagan and T.D. Mount, Approximating compensated income from ordinary demand functions (C43)191
Y. Fan and Q. Li, A consistent nonparametric test for linearity of AR(p) models (C52) 53
R. Serrano, A comment on the Nash program and the theory of implementation (C71)203
B. Peleg, A difficulty with Nash's program: A proof of a special case (C71)305
U. Dulleck and J. Oechssler, The absent-minded centipede (C72)309
L.M.B. Cabral and A.S. Mello, Exchange rate expectations and market shares (C73) 61
N. Singh, Nash bargaining with the option to wait (C78) 69
E. Hutton and J. Whalley, Reference point dependence and specification bias (C90) 75

D Microeconomics

W.V. Gehrlein and D. Lepelley, Condorcet's paradox under the maximal culture condition (D7) 85
F. Al-Marhubi, A note on the link between income inequality and inflation (D30)317
R. Tenorio, Some evidence on strategic quantity reduction in multiple unit auctions (D44)209
T. Li and Q. Vuong, Using all bids in parametric estimation of first-price auctions (D44)321
N. Sun and S.-I. Kusumoto, A note on the Boyd-McKenzie theorem (D51)327
J. Schummer and W. Thomson, Two derivations of the uniform rule and an application to bankruptcy (D51)333
C. Herrero, Equitable opportunities: an extension (D63) 91
R. Aaberge, Interpretation of changes in rank-dependent measures of inequality (D63)215
B. Klaus, H. Peters and T. Storcken, Strategy-proof division of a private good when preferences are single-dipped (D63)339
D.A. Hennessy, The short- and long-run comparative statics of uncertainty (D80)347
W.S. Neilson and H. Winter, On criminals' risk attitudes (D81) 97
L. Eeckhoudt, Ph. Godfroid and C. Gollier, Willingness to pay, the risk premium and risk aversion (D81)355
N. Treich, Risk tolerance and value of information in the standard portfolio model (D81)361
R. Alessie and A. Lusardi, Consumption, saving and habit formation (D91)103

E Macroeconomics and Monetary Economics

T.I. Palley, Optimal monetary policy in the presence of a monetarist transmission mechanism (E4) 109
J.W. Dawson and E.F. Stephenson, The link between volatility and growth: Evidence from the States (E32)365

Elsevier Science S.A.

P. Howells and K. Hussein, The demand for money: Total transactions as the scale variable (E41)371
M.A. Wynne, More on optimal denominations for coins and currency (E42)221
C. Hsu and P. Kugler, The Revival of the Expectations Hypothesis of the US Term Structure of Interest Rates (E43)115

F International Economics

K. Koo Yun, Relative prices and improvement of real factor rewards in several sectors (F1) 379
H. Fujimoto and E.-S. Park, Optimal export subsidy when demand is uncertain (F12)383
O. Stark, C. Helmenstein and A. Prskawetz, A brain gain with a brain drain (F22)227
J. Strauss, The influence of traded and nontraded wages on relative prices and real exchange rates (F31)391
J.-L. Wu and S.-L. Chen, Can nominal exchange rates be differenced to stationarity? (F31)397
J. Thornton, Exports and economic growth: Evidence from 19th Century Europe (F43)235

G Financial Economics

J. Elder, Estimating the arbitrage pricing theory with observed macro factors (G12)241

H Public Economics

K. Kollman, J.H. Miller and S.E. Page, Landscape formation in a spatial voting model (H00)121
V. Miller, Why a government might want to consider foreign currency denominated debt (H6) 247
J. Hassler and A. Lindbeck, Optimal actuarial fairness in pension systems: A note (H55)251
R. Bivand and S. Szymanski, Spatial dependence through local yardstick competition: theory and testing (H73)257

I Health, Education, and Welfare

D.N. Figlio, Teacher salaries and teacher quality (I2) 267
J. Thornton, Are malpractice insurance premiums a tort signal that influence physician hours worked? (I10)403
M. Justman and J.-F. Thisse, Implications of the mobility of skilled labor for local public funding of higher education (I22)409

J Labor and Demographic Economics

H. Oosterbeek, Returns from computer use: A simple test on the productivity interpretation (J31)273

L Industrial Organization

J. Konings, Firm growth and ownership in transition countries (L0) 413
J.M. Hernández-García, Informative advertising, imperfect targeting and welfare (L10)131
P. Lukacs, Input contracts, market structure and the empirical specification of price cost margins (L11)139
J.S. Gans and R.J. Hill, Measuring product diversity (L11)145
L. Lambertini, On the provision of product quality by a labor-managed monopolist (L12)279
N. Eber, A note on the strategic choice of spatial price discrimination (L13)419

O Economic Development, Technological Change, and Growth

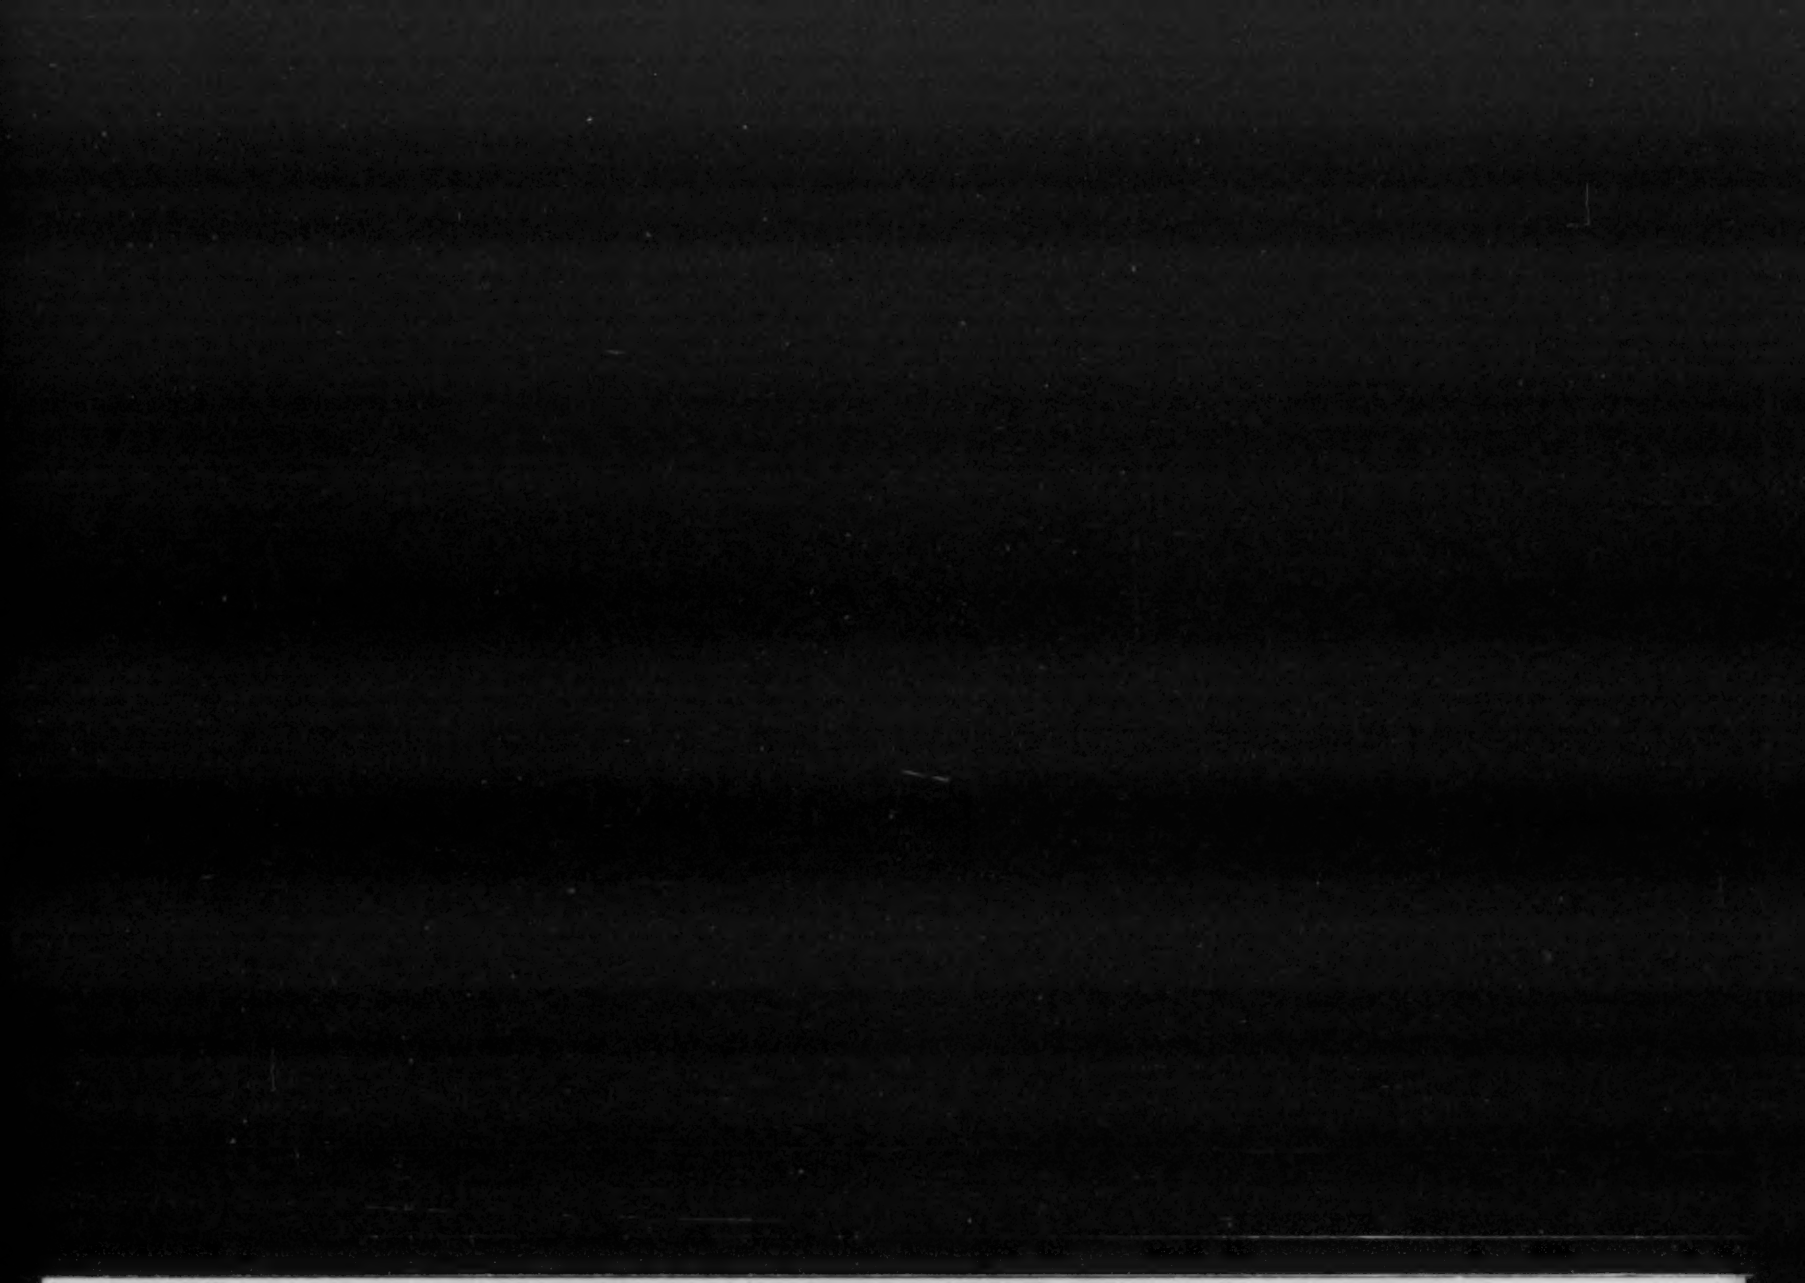
N.R. Vasudeva Murthy and I.S. Chien, The empirics of economic growth for OECD countries: Some new findings (O4) 425
G. Fernández de Córdoba, On the existence of a beliefs social equilibrium (O21)431

P Economic Systems

L.J. Lau, Y. Qian and G. Roland, Pareto-improving economic reforms through dual-track liberalization (P21)285

Q Agricultural and Natural Resource Economics

R.P. Berrens, A.K. Bohara, K. Gawande and P. Wang, Testing the inverted-U hypothesis for US hazardous waste. An application of the generalized gamma model (Q2) 435

Z Other Special Topics


R.A. Hofler and J.E. Payne, Measuring efficiency in the National Basketball Association (Z00)293
